Announcing Nominations for Scientific Prizes for Parkinson's Disease in Israel

The Aufzien Family Center for the Prevention and Treatment of Parkinson's Disease (APPD) will award two prizes to outstanding researchers in Parkinson's Disease. APPD is committed to support excellence in fundamental and translational research into the causes, mechanisms, diagnosis, treatment and prevention of Parkinson's Disease by awarding these scientific prizes to scientists in Israel – *Established and Junior*.

The APPD Scientific Prizes will honor major research discoveries. The Prizes will be awarded to investigators in recognition of the excellence and impact of his/her work in Parkinson's Disease, based on their long term contribution.

The amount of the Prize is set to \$7,000 USD for the *Established Scientist Prize* and \$3,500 USD for the *Junior Scientist Prize*. The prize money is intended to be used for scientific purposes.

Established Scientist Prize: Ten or more years of experience in a tenure track position at a University or Institute. Position start before October 1, 2014.

Junior Scientist Prize: Ten or less years of experience in a tenure track position at a University or Institute. Position start from and after October 1, 2014.

The Prizes are open to investigators in an Israeli University, hospital or institute holding a faculty position in a University as either M.D., Ph.D. or M.D./Ph.D. Candidates must be actively performing research in Israel (Emeritus status not eligible). Current members of the APPD Steering Committee are ineligible.

Nomination process

Nominations to the Prize may be submitted by a peer or self-nominations. In case of self-nomination, letters must be sent directly from referees.

Nomination deadline: May 15, 2024
